25X1

Dear Bob,

Below is an excerpt from a Soil Sample Analysis Report prepared by the [redacted] Soil samples from various sites [redacted] were submitted to the [redacted] for qualitative analysis in conjunction with our burial test program.

25X1
25X1

Site:	Puffer Pond
pH Acidity:	6.1
Nitrogen	
Nitrate:	Very Low
Ammonia:	Low
Phosphorus:	Medium
Potash:	Very Low
Calcium:	Very Low
Aluminum:	Low
Soluble Salts:	Absent

"In making the tests on the two samples of water, the phosphorus test did not show quite the way it should. There seems to be something in this water that is affecting this test. We have listed both of these as being medium, but this may not be correct.

"The pH's of these water samples would indicate that there is some sort of industrial waste present."
